10X ENGINEERED MATERIALS

SUPEROXALLOY ABRASIVES

WHEN TO CHOOSE

DynamiX

Superoxalloy Abrasive

HEAVY DUTY GRADE

- Engineered for Heavy Duty, High Value Assets
- Reducing Total Job Costs and Increasing Profits
- Enhanced Cutting and Deeper Profile for High Solids Coatings and Linings
- Superior Quality and Results
- Exceptional Safety

DYNAMIX
HEAVY DUTY GRADE

DESCRIPTION & APPLICATIONS

- ✕ Thick and difficult coatings: multi-layers, elastomerics, high solids epoxies
- ✕ Shipyards and tough marine applications
- ✕ Less than ideal blasting conditions such as shallow blast angles or longer than standard distances between the nozzle and the blasting surface
- ✕ Rail car maintenance
- ✕ Bridges
- ✕ Pipelines
