

MOBILE BLAST SYSTEMS

ALLREDI™

CUSTOM MOBILE BLAST SYSTEMS

Custom mobile blast systems are readily available and designed to meet your production needs with efficiency and versatility. Fully equipped with blast pots, moisture management systems, and airline filters, each system is built into a single high-performance unit mounted on a trailer or skid for easy portability.

SKID-MOUNTED BLAST SYSTEM W/ AFTERCOOLER

- 20 Cu. Ft. Blast Pot (Electric Controls)
- 250 CFM Aftercooler
- H.D Powder Coated Skid with Fork Pockets
- Media platform
- Hose Rack

SKID-MOUNTED BLAST SYSTEM W/ AIR DRYER

- (2)6.5 Cu. Ft. Blast Pot (Electric Controls)
- 450 CFM aftercooler package
- H.D Powder Coated Skid with Fork Pockets
- Custom media box
- MST CO Respiratory Protector

TRAILER-MOUNTED BLAST SYSTEM W/ AIR DRYER

- 6.5 Cu. Ft. Blast Pot (Electric Controls)
- 400 CFM vertical air dryer
- H.D Powder Coated Skid with Fork Pockets
- Lid & Screen
- Hose Rack

MOBILE BLAST SYSTEMS

ALLREDI

ALLREDI PRO TIP: By combining a complete high performance abrasive blasting system on a trailer or skid, Allredi has created high production abrasive blasting systems with unmatched portability and versatility. These systems combine a blast pot, moisture management system, and an airline filter together on a skid or trailer for ease of portability.

BLAST SKID W/ D-SERIES AIR DRYER

KEY FEATURES

ALSO AVAILABLE TO RENT

- MBM-Series Blast Pot, 3.5 Cu Ft or 6.5 Cu Ft
- Radex air filter (Optional)
- D-Series Air Dryer
- Blast Pot Lid & Screen
- H.D. Powder coated skid and hose rack
- Pressure-Release MPV Valve
- Blast Pot & Screen

POWDER COATED SKID

Each Mobile Blasting System includes a powder coated skid with fork pockets & hose racks. All components come plumbed and mounted on the skid.

D-SERIES DESICCANT INLINE AIR DRYER

Super-Dry D-series air dryers contain two highly efficient polypropylene coalescer elements that absorb oil and solid air particles. A desiccant bag is also included that absorbs moisture and condensation from the compressed air stream

SKID-MOUNTED MOBILE BLAST SYSTEMS		
	3.5 cu ft	6.5 cu ft
Skid-Mounted Part Number	**MBM35SREAH4**	**MBM65SREAH4**
Power Source	12-Volt DC	12-Volt DC
Air Filter	Radex or Bullard	Radex or Bullard
Air Dryer	AH4	AH4
Dry Weight		
Height		
Width	40”	60”
Length	40”	60”

Specifications are subject to change without notice.

MOBILE BLAST SYSTEMS

ALLREDI™

BLAST SKID WITH AFTERCOOLER

KEY FEATURES

ALSO AVAILABLE TO RENT

- MBM-Series Blast Pot, 3.5 Cu Ft or 6.5 Cu Ft
- Radex air filter
- 250 or 450 CFM Aftercooler system
- Blast Pot Lid & Screen
- H.D. Powder coated skid with fork pockets and hose rack
- Pressure-Release MPV Valve
- Blast Pot & Screen

POWDER COATED SKID

Each Mobile Blasting System includes a powder coated skid with fork pockets & hose racks. All components come plumbed and mounted on the skid.

AFTERCOOLER SYSTEM

Remove up to 95% moisture and contaminates from the compressed air stream

SKID-MOUNTED MOBILE BLAST SYSTEMS		
	3.5 cu ft	6.5 cu ft
Power Source	12-Volt DC	12-Volt DC
Air Filter	Radex	Radex
Aftercooler CFM	250 CFM	450 CFM

MOBILE BLAST SYSTEMS

ALLREDI™

BLAST SKID W/AIR DRYER

KEY FEATURES

ALSO AVAILABLE TO RENT

- MBM-Series Blast Pot, 3.5 Cu Ft or 6.5 Cu Ft
- Radex air filter
- 450 CFM Air Dryer system
- Blast Pot Lid & Screen
- H.D. Powder Coated Skid with Fork Pockets and Hose Rack
- Pressure-Release MPV Valve
- Blast Pot & Screen

POWDER COATED SKID

Each Mobile Blasting System includes a powder coated skid with fork pockets & hose racks. All components come plumbed and mounted on the skid.

AIR DRYER SYSTEM

Removes up to 99% moisture and contaminates from the compressed air stream

SKID-MOUNTED MOBILE BLAST SYSTEMS	
	6.5 cu ft
Power Source	12-Volt DC
Air Filter	Radex
Aftercooler CFM	400 CFM
Dry Weight

MOBILE BLAST SYSTEMS

ALLREDI™

/// BLAST SKID WITH ADJUSTABLE MEDIA LOADING PLATFORM

KEY FEATURES

- 6.5 Cu Ft MBM-Series Blast Pot with electric controls (Additional pot sizes available)
- 24” Lid and Screen
- 1-1/4” Piping string
- MPV abrasive metering valve (Pressure release)
- 800 CFM Moisture Separator
- Breathing air filter (Bullard or Radex)
- Powder coated skid, hose racks, and fork pockets

DRY-PRO MOISTURE SEPARATOR

800 CFM high-volume and maintenance free moisture separator. 150 PSI rated vessel with internally mounted stainless steel de-mister pads.

ADJUSTABLE MEDIA LOADING PLATFORM

The adjustable media loading platform reduces abrasive loading time and operator fatigue. Shown in the high position for loading; the low position is ideal for transport.

SKID-MOUNTED MOBILE BLAST SYSTEMS	
Power Source	12-Volt DC or Pneumatic
Air Filter	Radex or Bullard
Moisture Separator CFM	800 CFM
Dry Weight	2,000 lbs approx.
Height	60”
Width	60”
Length	120”

Specifications are subject to change without notice.
