

307 HOSE-MOUNTED BLAST LIGHT

The Marco 307 Hose-Mounted Blast Light attaches to the abrasive blasting hose, providing illumination to the work surface when working in dimly lit areas. The LED bulb provides crisp, clear illumination to the work surface. Powered by 12-Volt DC or 120-Volt AC, the Marco 307 light system provides versatility for a variety of work environments and applications. A thick, shatter-resistant replaceable lens, and an abrasion-resistant aluminum body provide lasting durability.

INCREASED PRODUCTION

The Marco 307 Hose-Mounted Blast Light increases production rates by providing the operator with better visibility of the work surface. The LED bulb offers brighter and crisper light than standard incandescent or halogen bulbs. The light weight design of the Marco 307 Hose-Mounted Blast Light reduces operator fatigue. With improved visibility, and reduced fatigue, the operator can precisely target the work surface, increasing production rates.

REDUCED DOWNTIME

All parts and components of the Marco 307 Hose-Mounted Blast Light can be quickly and easily repaired in the field, reducing downtime. The bulb can be installed by simply twisting into the light body.

COMMITMENT TO QUALITY

Our commitment to producing the highest quality products in the industry demands strict control over our raw materials and manufacturing processes. All components used in the manufacturing of Marco products adhere to strict process controls as specified by Allredi's Quality and Engineering team.

The Marco 307 Hose-Mounted Blast Light includes a light weight cast aluminum body, featuring an integrated mounting bracket, which attaches directly to the abrasive blasting hose in a low-profile design.

As your available power source changes, the Marco 307 Hose-Mounted Blast Light can quickly and easily be adapted from 120-Volt AC to 12-Volt DC by simply adding the power converter.

The Marco 307 Hose-Mounted Blast Light provides crisp, clear illumination by using an LED bulb. A thick, shatter-resistant replaceable lens protects the bulb.

KEY FEATURES

- LED Bulb for brighter, crisper light
- Abrasion-Resistant Aluminum Body for increased durability
- Repairable design for quick, in-field repairs
- Compatible with multiple power sources, increasing job site flexibility

OPTIONAL ACCESSORIES

Twist Lock Plugs

Lens & Bulb

Cord Connectors

Power Converter

Battery Clamp Kit
