

308 LED HOSE-MOUNTED BLAST LIGHT

The Marco 308 Series LED Hose-Mounted Light provides a crisp light to illuminate a surface being abrasive blasted. This light includes an abrasion-resistant aluminum body and shatter-resistant borosilicate lens to protect the long-lasting LED module. Designed to be used with multiple power sources, the Marco 308 Series LED Hose-Mounted Light is ideal for a wide range of applications. Typical applications include Blast Rooms, Blast Yards, Bridges, Oil Refineries, Offshore Platforms, Pipelines, Shipyards, Storage Tanks, and Water Treatment Plants.

INCREASED PRODUCTION

The Marco 308 LED Hose-Mounted Blast Light provides a crisp light to illuminate a surface being abrasive blasted. The light weight design of the Marco 308 LED Hose-Mounted Blast Light reduces operator fatigue. With improved visibility, and reduced fatigue, the operator can precisely target the work surface, increasing production rates.

REDUCED DOWNTIME

All parts and components of the Marco 308 LED Hose-Mounted Blast Light can be quickly and easily repaired in the field, reducing downtime. The Marco 308 LED Light Module and Driver can be replaced without any tools. No need to take the part out of service to send in for repair. Removes the need for tools in the field.

COMMITMENT TO QUALITY

Our commitment to producing the highest quality products in the industry demands strict control over our raw materials and manufacturing processes. All components used in the manufacturing of Marco products adhere to strict process controls as specified by Allredi's Quality and Engineering team.

The three-LED module design produces a 45 inch, round pattern of bright white light at 18 inches from the surface. The brightness created is similar to that of being outside.

The Marco 308 Series LED Hose-Mounted Light is made of abrasion-resistant aluminum body for exceptional durability against abrasive rebound.

Light assembly can be powered by 12-volt DC Battery or 120-volt AC and many lengths of cord to match your job requirements.

The LED module is protected by a shatter-resistant lens made of 3/16" thick borosilicate that can be quickly changed out.

KEY FEATURES

- Three LED module
- 12-volt DC or 120-volt AC power options
- Abrasion-resistant urethane body 3/16" thick borosilicate glass lens
- Stanchion for mounting to blast hose
- In-field repairable
- Lumens: 1226
- Light color: 6500k
- Beam angle: 22°
- Weight: 11 ounces

OPTIONAL ACCESSORIES

308 Series LED Hose-Mounted Repair Parts

Repair parts are available for all components of the product.

Power Cords, Connectors & Plugs

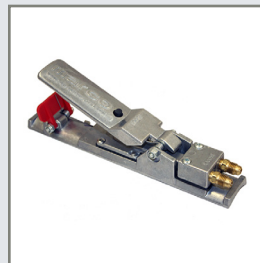

Additional power cords, power cord assemblies, and power cord connectors are available.

Blast Hose

Marco Blast Hose is available in standard lengths of 50, 100 and 400 feet, and custom lengths up to 200 feet.

Remote Control Switches

Having additional Marco Remote Control Switches on hand is an inexpensive way to reduce downtime.
