

Marco offers a variety of bundled Blast Pot Packages that include everything you need to use your blast pot. Available in a variety of sizes and types, packages typically can include coupled blast hose, a nozzle, coupling gaskets, a blast pot lid and screen, and a whipcheck safety cable. Typical applications include blast rooms, blast yards, bridges, oil refineries, pipelines, railcar shops, and storage tanks.

## INCREASED PRODUCTION

Blast Pot Packages include all of the essential equipment for your blast pot, including coupled blast hose, a nozzle, coupling gaskets, a blast pot lid and screen, and a whipcheck safety cable.

## SIMPLIFYING PURCHASING

Blast Pot Packages allow you to purchase all essential blast equipment using a single part number, reducing paperwork and errors.

## COMMITMENT TO QUALITY

Our commitment to producing the highest quality products in the industry demands strict control over our raw materials and manufacturing processes. All components used in the manufacturing of Marco products adhere to strict process controls as specified by Allredi's Quality and Engineering team.

Marco Blast Hose has an advanced abrasion resistant liner designed to increase the service life up to 150% over industry standard blast hose.

A blast nozzle is designed to accelerate and direct an air and abrasive mixture to the work surface for increased production.

Marco offers several types of couplings and nozzle holders to meet the needs of a wide variety of applications.

The heavy-duty lid and screen help prevent large debris and water from getting into the blast pot.
