MARCO® 0.75 CU. FT. SUCTION BLASTER

The Marco® 0.75 Cu. Ft. Suction Blaster is a non-pressurized tank used to contain a supply of abrasive material for abrasive blasting. Used with a suction gun, the Marco® 0.75 Cu. Ft. Suction Blaster uses air pressure to move abrasive through an abrasive blasting hose and out the tip of the suction gun, producing a jet of abrasive. Typical applications include auto restoration, farm implements, hand tools, and lawn furniture. Common abrasives used include slags, glass beads, and mineral abrasives.

SIMPLE CONTROLS

The Marco 0.75 Suction Blaster uses pressure from the air hose connected directly to the gun to pull the abrasive from the vessel out the nozzle. No inlet or outlet valves required, simplifying operation and maintenance.

REDUCED COST

The Marco 0.75 Suction Blaster is lighter weight and requires less set up, reducing the time needed to begin the job.

PORTABILITY

The lightweight design makes the Marco 0.75 Cu. Ft. Suction Blaster for mobile and light touchup work.

The light weight two piece handle and injector body with nozzle's simple design is quick to assemble and allows you to start blasting quickly.

The metering valve, located at the bottom of the blast pot, uses a simple bolt design to increase or decrease the amount of abrasive flowing through the valve.

The removeable abrasive screen allows for pouring abrasive into the pot while keeping over-sized abrasive and debris out.

A rugged, stable base with three stout legs, minimizes tipping associated with standard three legged bases.

MARCO® 0.75 CU. FT. SUCTION BLASTER

Marco
Powered by ALLREDI

KEY FEATURES:

- Includes 10 feet of coupled 1/2” I.D. heavy-duty blast hose
- Includes 10 feet of 1/2” I.D. air hose
- Suction Gun
- Lid & Screen
- Includes one 5/16” nozzle
- Empty weight: 25 lbs.
- Height: 27”
- Base Width: 16”
- Vessel Width: 10”

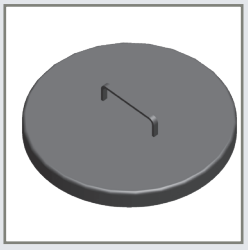

OPTIONAL ACCESSORIES

Abrasive Screen

The abrasive screen keeps over-sized abrasive and debris out of the blast pot.

Heavy-Duty Lid

The 10” heavy-duty lid helps keep rain and damaging debris out of the blast pot.

Air Hose

Marco Air Hose Air hose, fittings and accessories come in a variety of sizes, materials and lengths for different applications.

Blast Hose

Marco 1/2” ID Blast Hose is available per foot or in standard, precut lengths of 50’ for simple ordering.
