MARCO MANUFACTURED

INTRODUCTION

THE MARCO DIFFERENCE

Industry Experience

With Marco on your team, you have access to expertise which can only come from over decades of industry leadership. We have organized our engineering department, production specialists, customer operations, and safety support into a “Center of Competence.” As a Marco customer you have access to hundreds of years of cumulative experience related to your operations.

Manufacturing Capabilities

Marco is a U.S. based, ISO 9001:2008 certified manufacturer of equipment for the Surface Preparation and Protective Coatings industries. Marco’s engineers benchmark the industry to ensure that we design and manufacture superior products that have a quality and productivity advantage in the marketplace. Marco manufactures products that set the “Gold Standard” for performance, safety, and quality.

Legendary Customer Service

We understand the demands of today’s intense working environment. Marco’s legendary customer service team is staffed by friendly, highly-trained individuals who are focused on providing the highest level of product support, order accuracy, and customer satisfaction.

Product Availability

We stock over 10,000 SKU’s and have over 45 shipping locations to serve North American and International markets. In addition to Marco products, we stock components for all major brands of blasting and painting equipment. As the largest provider of surface preparation and protective coatings equipment in the world, our inventory levels are unmatched. Product availability is a cornerstone of our legendary customer service. You can count on Marco to have the inventory you need to keep your operations up and running.

Logistics Services

Marco’s in-house logistics team is dedicated to moving your shipment anywhere in the world. Let Marco’s logistics team take the hassle out of moving your freight. We move over 14,000 truckloads every year, allowing you to save on freight costs by leveraging our buying power. Lower your process costs with a single invoice, which includes product and freight. You can count on Marco for your logistics solutions.

Technology Leadership

Marco’s “3 Net Strategy” ensures access to timely and accurate information. Our Internet provides: Operator’s Manuals, Part Numbers & Schematics Guides, MSDS information, and Features & Specifications Guides, providing access to information 24/7. Our Extranet application allows you to receive quotes and place orders online. Our Intranet maintains a complete record of your purchase history to assist with ongoing support of your existing equipment and future purchasing decisions.

ABRASIVE BLASTING POTS

Abrasive blasting pots are the right equipment for large to small scale industrial and contractor abrasive blasting projects. Abrasive blasting pots are available in a wide range of capacities and can allow up to four operators at a time to perform abrasive blasting for an extended period of time.

Blastmaster®
6.5 & 3.5 Cu. Ft.
M-Series
Abrasive Blasting Pots

Blastmaster®
160 & 120 Cu. Ft.
Abrasive Blasting Pots

Blastmaster®
6.5 & 3.5 Cu. Ft.
S-Series
Abrasive Blasting Pots

Blastmaster®
6.0, 3.0 & 1.0 Cu. Ft.
C-Series
Abrasive Blasting Pots

Blastmaster®
6.5 & 3.5 Cu. Ft.
HP-Series
Abrasive Blasting Pots

Blastmaster®
2.0, 1.5 & 0.35 Cu. Ft.
L-Series
Abrasive Blasting Pots

ABRASIVE BLASTING SYSTEMS

By packaging a high performance abrasive blasting system on a trailer or skid, Marco has created high production abrasive blasting systems with unmatched portability and versatility. These systems combine an abrasive blasting pot, moisture management system, and a 6-Outlet airline filter together on a skid or trailer for ease of portability. Typical applications include blast rooms, blast yards, oil refineries, and pipelines. Common abrasives used include garnet, mineral abrasives, and slags.

**Abrasive Blasting System -
Trailer-Mounted**

**Abrasive Blasting System -
Skid-Mounted**

ABRASIVE BLASTING POT ACCESSORIES

**Blastmaster® Heavy-Duty
Bulk Bag Rack**

**Blastmaster® Offshore

ABRASIVE BLASTING HOSE, FITTINGS & ACCESSORIES

When it comes to abrasive blasting hose, choose the industry leader. No one sells or stocks more abrasive blasting hose than Marco. Marco offers different types of abrasive blasting hose to meet the needs of a wide array of applications. Whether you require 10 ft. or 10,000 ft. of abrasive blasting hose, Marco is prepared to ship the abrasive blasting hose the same day your order is placed.

**Blastmaster® Super-Flex
Abrasive Blasting Hose**

**Blastmaster® Xtreme-Duty®

**Hammer Lock Fittings
Swivel Couplings & Gaskets
Threaded Metal End
Couplings & Gaskets**

Air Hose

ABRASIVE STORAGE HOPPERS

An economical option for storing and loading bulk abrasive, the 725 Cu. Ft. Abrasive Storage Hopper keeps abrasive off the ground and out of the elements, protecting the abrasive from moisture contamination.

**725 Cu. Ft. Abrasive
Storage Hopper**

LIGHTING

Marco offers a full line of lighting options. Hose mounted abrasive blasting lights provide direct lighting to the surface being blasted. Hazardous location lights provide direct lighting to your work area.

**Blastmaster® 300 Series
Hose-Mounted Light**

**Blastmaster® 301 Series
Hose-Mounted Light**

**Blastmaster® 307 Series
Hose-Mounted Light**

**Blastmaster® 308 Series LED
Hose-Mounted Light**

PRESSURE WASHERS

Marco offers a full line of pressure washers from industry leader Mi-T-M®. Whether your applications require a large or small system, we have your solution.

- Mi-T-M® CBA Series Pressure Washers**
- Mi-T-M® CW Series Pressure Washers**
- Mi-T-M® CWC Series Pressure Washers**
- Mi-T-M® JCW Series Pressure Washers**
- Mi-T-M® Cold Water Extension Hoses**
- Mi-T-M® Rotating Nozzles**

INSPECTION EQUIPMENT

Marco offers a full selection of paint inspection tools to help with evaluating the spraying process of industrial coatings. Tools are available for testing air humidity, surface and air temperature, and surface profile.

Surface Inspection Equipment
Coating Inspection Equipment
Atmospheric Inspection Equipment

PIPE BLASTING EQUIPMENT

Internal pipe surface preparation is accomplished easier, faster, and economically with the use of internal pipe cleaning tools. These tools are designed to blast clean without the necessity of rotating the pipe. They remove rust, old paint, and other contaminants better than any other method. Through highly-powered abrasive impact, precise surface profiles can be obtained.

**Blastmaster® Coneblast
Internal Pipe Blasting Tool**

**Blastmaster® Coneblast Jr.
Internal Pipe Blasting Tool**

**Blastmaster® Tornado Internal
Pipe Blasting Tool**

POWER TOOLS

Marco's line of surface preparation power tools give you the right equipment to power through tough jobs. We have what you need including needle scalers, peening preparation tools, grinders, sanders and bristle blasters.

MBX® Bristle Blaster®

Ingersoll Rand Power Tools

Novatek Power Tools

Texas Pneumatic Power Tools

ABRASIVE BLASTING CABINETS

Marco Blast Cabinets are available in many different configurations to fit your needs. Typical applications include industrial production facilities, maintenance shops, and manufacturing and fabrication industries. .
